

## AlpClusters2020 final conference

### Supporting transnational cluster networks at Alpine Space level 22.10.2014, Salzburg Congress Center

AlpClusters2020 is an Alpine Space capitalisation project focusing on how cluster internationalisation activities can be supported and fostered by policy measures. The aim of this conference is to present the results of the project to a broad public of stakeholders. Through a simulation workshop, the participants will also be involved in the process of matching the findings of the project with the implementation of future measures supporting clusters and companies internationalisation. Thereby the conference will offer the possibility to start practicing what learned during the Alpine Space launch conference.

#### Programme

14:00 Registration

14:15 Welcome & Introduction

AlpClusters2020: the project story - Ivan Boesso, Veneto Innovazione Spa

14:25 Introduction from the JTS - Anne-Severine Lay, Alpine Space JTS

14:40 The “toolbox of actions”

Presentation of the toolbox with a focus on the best 5 actions emerged -  
Charly Pache, Pôle scientifique et technologique du canton de Fribourg

15:00 Presentation of the simulation workshop - Laura Fusani, Proplast

15:15 Coffee break

15:30 Simulation workshop: developing project ideas in the 6 Alpine Space priorities:

- Improve the framework conditions for innovation in the Alpine Space
- Increase capacities for the delivery of services of general interest in a changing society
- Establish trans-nationally integrated low carbon policy instruments
- Increase options for low carbon mobility and transport
- Sustainably valorise Alpine Space cultural and natural heritage
- Enhance the protection, the conservation and the ecological connectivity of Alpine Space ecosystems

16:45 Projects showcase

17:30 Closing of the Conference
