

Town of Chiavenna (SO) : EXPERIMENTATION OF INNOVATIVE TOOLS FOR PLANNED CONSERVATION AND RESTORATION OF THE ALPINE BUILT HERITAGE

Main characters: A key-municipality in the transalpine historical trade. It includes a monumental historical centre, 4 hamlets on the valley floor, 2 hamlets on the mountain slope and 18 historical typical settlement of “crotti”.

Local authorities involved: Municipality of Chiavenna

Starting from...best practices related to the restoration of frontages of the historical centre and to the enhancement of the hamlets; participation to the international network of the Slow Cities (see www.cittaslow.net); INTERREG IIIA projects already done

Operational tools to be applied: an innovative tool for the regulation of the procedures for the interventions on the historical building heritage, promoting the planned conservation.
Plan of enhancement and planned conservation of the “Crotti” area.
Restoration of public open spaces.
