- 3) *Dr. Anne Ritzinger, Bavarian administration for Rural Development (DE): Towards a land-saving rural development*
- 4) Discussion

Working session “Communication, information and financial support”

Summary and key messages:

- There is a lot of existing knowledge as well as many existing funding opportunities → key task is to convince the responsible decision-makers (e.g. mayors)
- Many funding programmes focus on supporting inner development → also the need to evaluate if there are appropriate funding schemes for sustainable development of open space functions/ qualities
- Unsustainable territorial development is favoured by uncoordinated municipal planning → the elaboration of inter-municipal land-use plans and concepts should be supported (by financial support as well as legal obligations)
